

Coffee for studying together while connecting with the same flavor.

# MANAKIKI • BLEND

Manakiki Blend is for people with disabilities and children who have difficulty attending school because of the COVID-19, feel lonely in online classes, and face a “learning crisis.”

Let’s learn together while drinking the Manakiki Blend. The profits will be returned to the salaries for people with disabilities and used as the project expenses (ex, part-time job salary, and teaching material creation expenses.)

Tsuda university students and graduate students developed the Manakiki Blend with Workers Home, working for person with disabilities in the Ginowan city in Okinawa.

You can send this coffee by put on the stamp.

# THE STORY OF MANAKIKI BLEND

Support for “learning” and “dream” by coffee.

## (1) Children with disabilities who want to take online classes.

Currently, there are children with disabilities who are refraining from going to school, fear of the COVID-19. However, some of the teaching material is not sufficient for them.

In addition, there are few homes teacher for them. Manakiki Blend will accomplish the dream that children with disabilities want to “learn” in order to deepen their “learning” with curiosity and open their own future in difficult situation.

## (2) University students (learning navigators) who want to “teach” online.

There are university students who cannot part-time job to prevent the spread of the COVID-19. Students who are “learning navigators” who want to be a teacher in the future cannot work the cram school. We will accomplish that student can go to university without financial anxiety and obtain the teaching experience.

## (3) Manakiki Blend Creator: People with disabilities who want to “work”.

Workers Home is the only organization in Japan where people with various disabilities consistently make coffee from farms to cafes. It has been loved by the local community for its clear taste and flavor created by choosing beans one by one, taking time and effort. Workers Home has a dream of getting more people to buy coffee and connect it to the work of people with disabilities, even though it is not possible to expand sales opportunities due to the COVID-19 now. We will accomplish the dream by Manakiki Blend.

**Manakiki Blend is a new system of social contribution, just by changing the coffee you usually drink to “Manakiki Blend” for people with disabilities, children with disabilities, and university students who aim to become teachers. We propose a system that can support the “learning.”**

With “2 cups of Manakiki Blend a day,” “1 weekly lesson is possible!”

“University students”

Teach for children with disabilities in online.

“You”

Purchase the coffee.

Enjoy the taste and flavor.

“Workers with disabilities”  
Making coffee politely.
